Concept

- Game Rewiew allows users to write, edit, and share reviews on their favorite games.
- Motivation for development?
  - Game Rewiew provides a space for the user to keep their reviews in one space like a journal of sorts to keep their favorite titles, track their experiences, and share their overall thoughts on various gaming titles.
- User story (see below)

User Story

- AS A video game enthusiast looking to share collective experiences
- I WANT a clean, easy-to-use application that can render my favorite titles and allow me to write personal reviews
- SO THAT I can share my experiences with the gaming community at large.

YOUR GAMES

Sonic Advance 3

Mario Kart & Deluxe

Pokemon Yellow Version

Pokemon

Sonic Advance 3

Yet again, another Sonic Advance in which replay value is practically zero if your trying to collect all 7 Chaos Emeralds. Other then that, it's a Sonic game your sure to come back to again and again. This Sonic game is probably the best of all 3. All zones are hold some sort of appealing design to it, with a decent challenge, and the bosses have gotten even more interesting then the last game.

Mario Kart & Deluxe

Brings back wonderful memories from the original but is updated enough to enjoy it with the kids! Definitely a game to keep in your library instead to getting rid of when you are done. Replay value is perfect.

Pokemon Yellow Version

Pokémon Yellow Version will always have a special place in my heart. For those who are a fan of the classic anime, this is the game for you. Like Ash, you start out with Pikachu and make it your goal to become the Pokémon Master. You have Pikachu tagging along while fighting various gym leaders and even Team Rocket.

Directions for Future Development

As of today, Game Rewiew is in development.

Directions for Future Development Include:

- User to user engagement: Comment, follow, etc.
- Opportunity to rate and build off of one another's reviews
- Forum feature
- Utilize the IGDB API to expand titles available to users
